Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at: <u>hp.com/go/learnaboutsupplies</u>

Note: HP PageWide XL printers are not designed to use continuous ink systems. HP PageWide XL printers are designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause the printer to fail, and voids the HP ink cartridge warranty.

Production costs savings based on an HP PageWide XL 5100 Printer compared with a combination of a mid-volume monochrome LED printer and a mid-volume color production printer (both under \$40,000 USD) as of April, 2017. Production costs consist of supplies and service costs, printer energy costs, and operator costs. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.
 Based on internal HP testing on the HP PageWide XL 5100 Printer compared to preparing and printing the job on two different printers (one comparable monochrome mid-volume LED printer for the monochrome pages and one color printer for the color pages). For testing criteria, see <u>thp.com/go/pagewidexlclaims</u>.
 Bing HP SmartStream software compared with using equivalent software programs. For testing criteria, see <u>thp.com/go/pagewidexlclaims</u>.
 HP PageWide XL pigment inks are critified per the ISO 11798 Permanence and Durability standard, proving that prints made with HP PageWide XL pigment inks withstand harsh exposure to light, water, abrayabilis, and long-term storage and heat, and remain legible in the future. For more information, see <u>hp.com/go/pagewidexlclaims</u>.
 ISO/US technical and offset standards include American ANSI and Architectural page size standards, ISO A technical document standard, and ISO B offset page size standard.
